February 16, 2010

For Immediate Release

INNOTECH Records Banner Attendance at the 2010 WOC!

One of the newest manufacturers in the Decorative Concrete industry, INNOTECH had a record number of visitors during the recent World of Concrete Exhibition. Ideally located on a main isle near the entrance for the Central Hall, attendees were drawn in not only by the location, but the unique logo.

Decorative concrete product types that INNOTECH currently offers include Integral Colors, Color Hardener, Release Powder, Liquid Release, Chemical Stain, Liquid Dye Concentrate, Micro-Topping EXT and a strong range of cures, sealer, accessory and maintenance products. Products available in the near future include Stampable Overlay, Micro-Topping, Imprinting Tools, and Revitalize Solid Concrete Stains.

Established in 1998, ChromaScape, Inc. is recognized as one of the world's top producers of aqueous color dispersions. The ChromaScape family of companies focuses on providing effective, safe and environmentally friendly colorants to make the world brighter and more attractive. The company has a wealth of experience in the colorant industry and is committed to building a sustainable organization that provides *Real Tangible Value™* to its customers.

For more information about INNOTECH or other ChromaScape companies, contact a Customer Service Associate at 877-829-7880, or visit us at www.innotechdcp.com, or www.chromascape.com.
