## **INNOTECH Decorative Concrete Products will exhibit at the 2010 World of Concrete!**

One of the newest manufacturers in the Decorative Concrete industry, INNOTECH has been assigned a prize exhibit space in the Central Hall for the World of Concrete 2010. Visit this new Decorative Concrete products manufacturer in booth C4349, near White Cap and Husqvarna.

Decorative concrete product types that INNOTECH currently offers include Integral Colors, Color Hardener, Release Powder, Liquid Release, Chemical Stain, Liquid Dye Concentrate, Micro-Topping EXT and a strong range of cures, sealer, accessory and maintenance products. Products available in the near future include Stampable Overlay, Micro-Topping, Imprinting Tools, and Revitalize Solid Concrete Stains.

Established in 1998, ChromaScape, Inc. is recognized as one of the world's top producers of aqueous color dispersions. The ChromaScape family of companies focuses on providing effective, safe and environmentally friendly colorants to make the world brighter and more attractive. The company has a wealth of experience in the colorant industry and is committed to building a sustainable organization that provides *Real Tangible Value™* to its customers.
